Ultimum

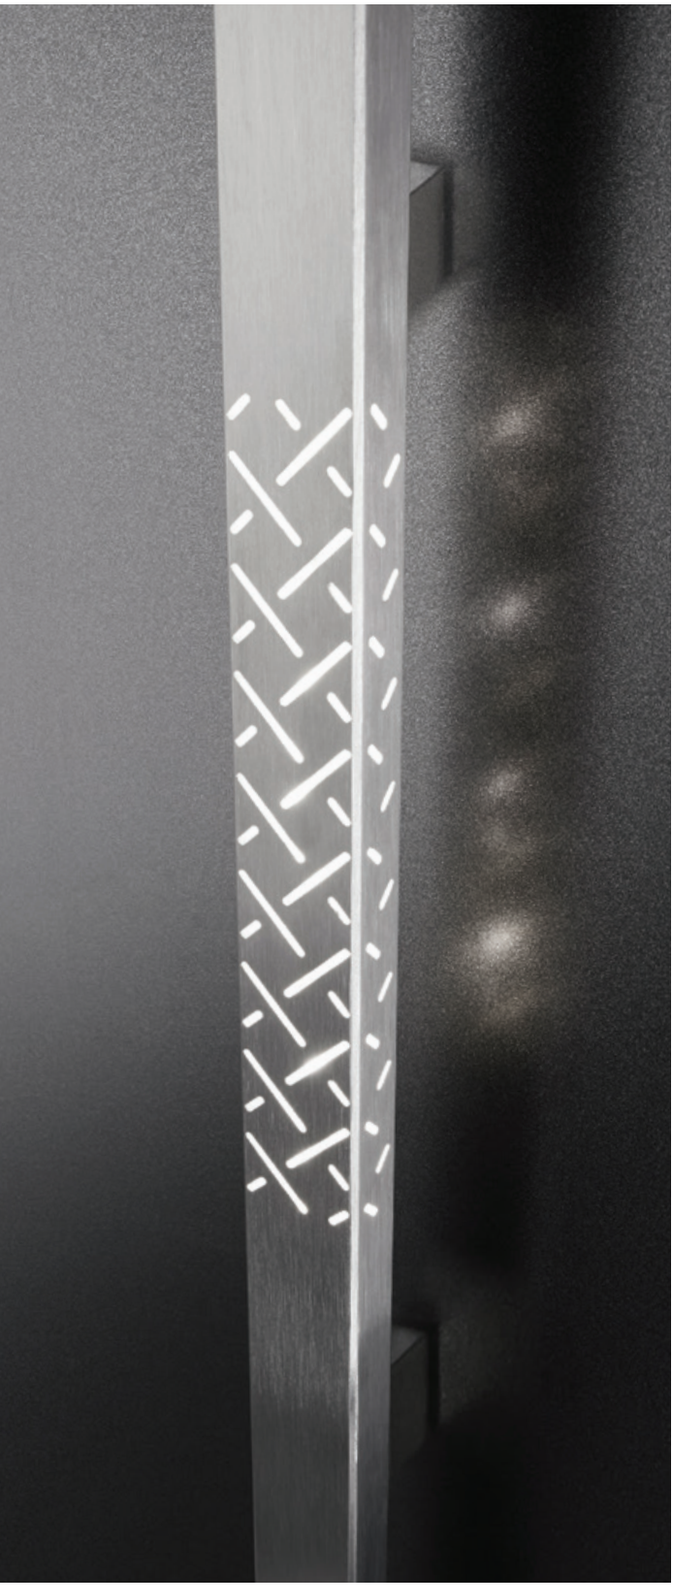
NOTHING IS IMPOSSIBLE

HANDMADE COLLECTION 2019

635

A designer knows he has achieved perfection
not when there is nothing left to add,
but when there is nothing left to take away.

ANTOINE DE SAINT-EXUPERY



You do not accept compromise.

When it comes to the most important things in life, there is no middle way. Just as there is no middle way between the real and the unreal, the excellent and the average, or excitement and boredom.

We only have one goal – to amaze. Once the course is set, no obstacle can make us change course. We persevere. We refuse to give up. For as long as it takes for a solution to present itself and find its way into the world. Onto the desks of our designers, engineers and experts with their magic touch. Where the impossible becomes possible.

You shun compromise. For you, as for us, the only option is to find a solution that will elicit pride when you look at your door.

Only those who believe in themselves shine when it matters.

MAURICE GREENE

You shine where others do not.

Not everyone can be a shining example to others. You are. You are an example of what you can achieve in life. You are proof that having a vision, courage and perseverance allows you to tackle all obstacles and create light where there was once darkness.

When they light up, it looks like magic. The night is no longer the dark part of the day, it is instead a lightshow that does not end until morning. A handle with enigmatic illumination, abundant light decor on the door itself, a softly lit doorstep. The awe never ends. The entrance
– no, the home itself – comes alive.

Your home is now warm, inviting, comfortable and safe. Shine like a star!

You know what you want.

ALUMINIUM, WOOD OR BOTH?

A revolutionary choice of material.

Collection Ultimum® entrances can be made of aluminium, wood or a combination of the two. Upon entering, you can be greeted by the uncompromising firmness of aluminium or embraced by delicate wood.

Only the best know what they want. Free your mind. Forget all limitations. Make your decisions freely.

Everything is possible with *the Collection Ultimum*® entrances.

CARBON
FOR EXCELLENT
SOLIDITY

Big results require big ambition.

HERACLITUS

There are no limits.

GRANDE

For the grand.

Sometimes size does matter. Spacious rooms with high ceilings, majestic villas, castles and masterpieces of modern architecture cannot be fitted with a run-of-the-mill entrance. And some simply refuse to have a regular-sized entrance. A select number of *Selection Ultimum*® entrances can be produced as Grande entrances, measuring up to 300 cm in height and 280 cm in width. Along with side elements, they create an impression of breath-taking grandeur. Grande is a world of unparalleled elegance. It is an entrance for spaces and people that are larger than life.

The best is noticed by the best.

Innovative entrance doors are setting new trends in the design of entrance doors. They have received numerous design awards. One of the most prestigious ones is the international German Design Award, awarded by the German Design Council.

PURE

There are entrances that take your breath away.

At some entrances people just cannot find the words. You just have to stop for a while every time before entering.

Some entrances make us wish to slide a hand over them. We want to feel them not just see the tiny rifts and an exchange of material.

This is **ULTIMUM® PURE**. Purity of surfaces where nothing defaces the perfect flat surface. An entrance for the most up to date houses and the most demanding admirers of perfection. The one where nothing can be added or taken away. All elements are plunged into unified flat without unnecessary brims and frames. Where everything is one.

Pure is a secret. Touch it.

The handle as the dominant element.

MULTILEVEL
Entrance that everybody notices.

ULTIMUM® MULTILEVEL is something people would never expect. It is a breakthrough from a limitative flatness into a 3-D world. It is a surprise urging the spectator to come closer and touch a stirred surface. It is a tectonic movement in designing entrance doors. It is innovation achievable only with skilled hand working and top level technology.

ULTIMUM® MULTILEVEL is an outstanding and noticeable entrance for people with charisma. It is for the people who are not afraid to speak their opinion and show their own uniqueness. It is for the leaders. The right entrance for you.
